11. Estimated time required to complete the application of water to beneficial use. 12 months 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. By. 8/ Frank C. Shields 705 E. Fourth St. Winnemucca, NV 89445 Protested APPROVAL OF STATE ENGINEER This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the smount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent water. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued with the express understanding and on the condition that existing greating use of the public range by authorized users or permittees will not be impaired or adversely affected by approval and issuance of this permit. The amount of water to beneficial use shall be lifted on or before. July 2, 1990. Application of work shall be filed on or before. July 2, 1991. Proof of beneficial use shall be made on or before. July 2, 1991. No file, this _2nd	10.	Estimated time required to construct works. None - Existing facilities If well completed, describe works.
